Item	Description	Carry-on	Check baggage
Alcoholic beverages containing more than 24%but not more than 70 % alcohol by volume			
	**Requirement** a) must be in retail packagings; b) no more than 5 L per individual receptacle; and c) no more than 5 L total net quantity per person for such beverages. ***Note*** – Alcoholic beverages containing not more than 24 per cent alcohol by volume are not subject to any restrictions.	✓	✓
Ammunition (cartridges for weapons)			
	**Requirement** a) no more than 5 kg gross mass per person for that person's own use; b) must not include ammunition with explosive or incendiary projectiles; and c) allowances for more than one person must not be combined into one or more packages.	✗	✓
Batteries, spare/loose, powerbanks including lithium metal or lithium ion cells or batteries.			
  	**Requirement** a) No more than 20 spare batteries in total, for personal use, are permitted per passenger. The lithium metal batteries content must not exceed 2 g and lithium ion batteries not exceed 100 Wh. b) All other battery restrictions still apply e.g. no more than two spare lithium batteries exceeding 100Wh and up to 160Wh, including the lithium metal content exceeding 2 g. but not exceeding 8 g. **Note -** Watt hours (Wh) are determined by multiplying the voltage (V) by the amp hours (Ah). ie. 12V x 5Ah = 60Wh	✓	✗

Item	Description	Carry-on	Check baggage
Alkaline and all others (Other batteries can include Nickel Cadmium, Nickel Metal Hydride etc.)			
	**Requirements** *The battery terminals must be protected or* should be in retail packagings; *e.g. taping over the exposed terminals.*	✓	✓
Lithium Ion batteries (rechargeable) - not more than 100Wh			
	**Requirements** The battery terminals must be protected e.g. taping over the exposed terminals.	✓	✗
Lithium Ion batteries (rechargeable) - exceeding 100Wh and up to 160Wh			
	**Note -** Lithium Ion batteries must be declared during check-In **Requirements** a) No more than two spare batteries. b) The battery terminals must be protected e.g. taping over the exposed terminals. c) Lithium ion batteries over 160Wh are ***forbidden*** as passenger baggage and must be sent as freight.	✓	✗
Lithium Metal batteries (non-rechargeable) - containing up to 2g of lithium metal			
	**Requirements** The battery terminals must be protected e.g. taping over the exposed terminals.	✓	✗

Item	Description	Carry-on	Check baggage
Dry ice (Carbon dioxide, solid)			
	**Requirements** a) Up to 2.5kg is permitted per passenger. b) Carried in a package that permits the release of the CO2 gas.	✓	✓
e-cigarettes			
	**Requirements** The use and charging of all e-cigarettes and other personal vaporisers are forbidden on board an aircraft.	✓	✗
Aerosols-non flammable gas, Toiletries article and medicinal article			
 	**Non-radioactive medicinal articles (including aerosols), toiletry articles (including aerosols) and aerosols in Division 2.2 with no subsidiary hazard** a) no more than 0.5 kg or 0.5 L total net quantity per single article; b) no more than 2 kg or 2 L total net quantity of all articles (e.g. four aerosol cans of 0.5 L each) per person; c) release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents; and d) the release of gas must not cause extreme annoyance or discomfort to crew members so as to prevent the correct performance of assigned duties.	✓	✓

Item	Description	Carry-on	Check baggage
Smart baggage			
   	Baggage with installed lithium batteries non-removable batteries exceeding 0.3 g lithium metal or 2.7 Wh lithium ion are **forbidden.** **Requirements** Baggage with installed lithium batteries: - NON-removable batteries. Batteries must contain no more than 0.3 g lithium metal or for lithium ion must not exceed 2.7 Wh; - Removable batteries. Batteries must be removed if baggage is to be checked in. Removed batteries must be carried in the cabin. Note: Refer to section 'Batteries-spare/loose, powerbanks' for additional carriage requirements in the cabin.	✓	✓
Mobility aids (Wheelchairs)			
	Battery-powered wheelchairs or other similar mobility aids for use by passengers whose mobility is restricted by either a disability, their health or age, or a temporary mobility problem (e.g. broken leg)	✗	✓

Item	Description	Carry-on	Check baggage
Lithium-ion battery removable from a mobility aid			
	**Note**. - Battery powered mobility aids must be declared during check-in. **Requirements** a) the battery(s) must be removed from the mobility aid b) all the terminals must be individually protected to prevent short circuiting, e.g. taped c) the battery(s) must be protected from damage e.g. protective bag/pouch d) a passenger may carry a maximum of one spare lithium ion battery not exceeding 300Wh or two spare batteries each not exceeding 160Wh	✓	✗
Lithium-ion battery non removeable from a mobility aid			
	**Note**. - Battery powered mobility aids must be declared during check-in. **Requirements** a) the battery must remain securely attached to the mobility aid with the terminals protected b) if available, the aid's free-wheel mode must be activated prior to loading the aid must be switched OFF	✗	✓
Non-spillable/Dry Cell battery removeable from a mobility aid *e.g. AGM, Deep Cycle, SLA, NiMH, NiCad*			
	**Note.** - Battery powered mobility aids must be declared during check-in. **Requirements** a) the battery(s) must be removed from the mobility aid b) the removed battery(s) must be packed in a strong rigid container with terminals protected	✗	✓

Item	Description	Carry-on	Check baggage
Non-spillable/Dry cell battery non removeable from a mobility aid *e.g. AGM, Deep Cycle, SLA, NiMH, NiCad*			
	**Note**. - Battery powered mobility aids must be declared during check-in. **Requirements** a) the battery must remain securely attached to the mobility aid with the terminals protected b) if available, the aid's free-wheel mode must be activated prior to loading c) the aid must be switched OFF	✗	✓
Gas Camping Stove			
	**Requirements** a) Empty fuel tank and/or fuel container b) If any gas smell is detected during the check-in process (including an inspection) the item will be denied carriage. c) Flammable gas canisters are forbidden.	✗	✓
Oxygen or air, gaseous, cylinder require for medical use.			
	**Requirements** Oxygen or air, gaseous, cylinders required for medical use. The cylinder must not exceed 5 Kg gross weight	✓	✓
Thermometer, medical or clinical			
	**Requirements** Which contains mercury, one (1) per person for personal use, when in its protective case.	✗	✓

Item	Description	Carry-on	Check baggage
Matches, safety (one small packet) or a small cigarette lighter			
 	That does not contain unabsorbed liquid fuel, other than liquefied gas, intended for use by an individual when carried ob the person. Lighter fuel and lighter refills are not permitted on one's person or checked or carry on baggage	(On ONE'S PERSON)	

Forbidden Dangerous Goods

The information shown below summarises items that are forbidden.

Note: this list is not exhaustive and other items not shown may be forbidden.

Forbidden in passenger baggage:

- Alcoholic beverages containing more than 70 % alcohol by volume
- Baggage with installed lithium battery non-removable batteries exceeding 0.3g lithium metal or 2.7 Wh.
- Bleaching agents e.g. laundry bleach
- “Blue frame” or “Cigar” lighters
- Car batteries
- Cook top lighters
- Disabling devices (e.g. mace, pepper spray, etc) containing an irritant or incapacitating substance
- Electro shock weapons (e.g. Tasers)
- Fertilisers
- Fire extinguishers
- Fireworks
- Flammable aerosol cans e.g. spray paint
- Flammable gas cylinders/cartridges e.g. butane canisters, BBQ gas bottles
- Flammable liquids e.g. methylated spirits, isopropanol
- Flares
- Hydrogen peroxide
- Industrial cleaning products
- Insecticides and weed killers
- Lithium ion batteries exceeding 160Wh (not including mobility aid batteries)
- Liquid oxygen systems
- Non-flammable gas cartridges over 28g e.g. soda stream canisters
- Oil based paint
- Party poppers (unassembled "make your own" party poppers/ cracker kits)
- Petrol
- Pool cleaning products e.g. chlorine
- Security-type attache cases (e.g. cash boxes, cash bags, etc) incorporating dangerous goods, such as lithium batteries and/or pyrotechnic material
- Self-balancing boards e.g. hoverboard
- Self-inflating life rafts
- Sparklers
- Strike anywhere matches
