Requirement for Implementation of Aircraft Noise Standards

In order to minimize and prevent disturbance from aircraft noise, the Department of Civil Aviation, with the approval of Ministry of Transport, prescribes the requirement for implementation of aircraft noise standards which is effective since 1 December 2006 as follows:

1. No aeroplane shall be operated at Bangkok International Airport (DMK), Suvarnabhumi International Airport (BKK), and Chiang Mai International Airport (CNX) unless it complies with the noise standards of International Civil Aviation Annex 16 Volume 1 Chapter 3 or equivalent standards as applicable regardless of the date for which the application for certificate of airworthiness for the prototype was accepted, or another equivalent prescribed procedure was carried out by the certifying authority as stated thereof.
2. The documents attesting noise certification shall be approved by State of Registry and shall be carried on board the aeroplane.
3. A copy of document prescribed in paragraph 2. of jet or propeller driven aeroplane which is subject to the requirement of paragraph 1. and for which a certificate of airworthiness was first issued in or before October 1997 or November 1988 respectively shall be sent to the following address prior to such operation:
