**GEN 1.3 ENTRY, TRANSIT AND DEPARTURE OF PASSENGERS AND CREWS**

**1. Customs Requirements**

- 1.1 Effective from 21 September 2004, all inbound passengers are not required to present completed form of customs declaration (Form 211). Nevertheless, they are still needed to proceed to customs green or red channels for customs inspection. Passenger who has nothing to declare, will be immediately released through the green channel, while passengers who has goods to declare, must proceed through the red channel for customs inspection.
- 1) For International Airport in Thailand, the dual-channel system for the clearance inwards of passengers and their baggage is introduced.
    - a) One (green channels) with the words "NOTHING TO DECLARE" for passengers having with them no goods or only goods which can be admitted free of import duties and taxes and which are not subject to import prohibitions or restrictions.
    - b) The other (red channels) with the words "GOODS TO DECLARE" for other passengers or the passengers is unsure whether or not goods are subject to a).
  - 2) Passenger proceeding through the green channel may be subject to random search if the customs officer has reasonable suspicion.
  - 3) The following goods accompanying passengers are duty free allowance :
    - 200 cigarettes or 250 grams of cigars and tobacco or altogether weighting not more than 250 grams at the maximum
    - 1 litre of alcoholic liquor
    - Personal effects in reasonable quantity and of which value not exceeding 10,000 Baht
    - Used household effects on permanent change of domicile in reasonable amounts.
  - 4) The following articles are restricted and prohibited to bring into Thailand :
    1. Narcotics and stimulated drugs;
    2. Armaments and dangerous objects;
    3. Obscene articles;
    4. Telecommunication equipments;
    5. Wild animals and plants;
    6. Any articles concerning Intellectual Property Right (IPR) violation
    7. Other prohibited and restricted goods according to laws and regulations of concerned government agencies.
  - 5) Passenger with dutiable item and restricted articles which are not intended for use in Thailand must inform Customs and present the airplane ticket stating the destination to the third country. Those items shall be placed in Customs custody not more than 2 months. They can be reclaimed on the departure date while checking in by informing the airline staff and paying the storage fees at the customs office.
  - 6) No limit of foreign currency and Thai currency to bring into Thailand. In case that passengers bring more than 20,000 \$US, they might ask the customs officers at customs channels to issue the certified document to used as the evidence in bringing that amount of money into Thailand.
  - 7) Any dutiable, prohibited and/or restricted articles found being brought through the Green Channel will be confiscated and the bearer may be subject to a fine equal to four times the duty-paid value of the goods or 10-year imprisonment, or both.
- 1.2 Baggage belonging to out-bound passenger will normally be released without interference of the Customs due to most of export items are exempted from Customs duty.
- 1) Currency
    - a) Thai currency
      - Maximum 500,000 Baht can be taken out to Thailand's bordered countries and Vietnam.
      - Maximum 50,000 Baht can be taken out to the other countries.
      - The export permit must be granted by authorized bank if the amount exceeding the above maximum.
    - b) Foreign currency
      - No limit of foreign currency to take out of Thailand but in reasonable amount for the detail information, please ask the authorized banks or Bank of Thailand.
      - Bringing or taking an aggregate amount of foreign currency exceeding USD 20,000 or its equivalent out of or into the Kingdom of Thailand shall declare such amount of foreign currency to a Custom officer.
      - Failure to declare upon bringing foreign currency that exceeds the amount restricted by law or its equivalent out of or into the Kingdom of Thailand or making any false declaration to a Customs officer is a criminal offence.

- 2) The following articles are restricted and prohibited to take out of Thailand:
  1. Narcotics and stimulated drugs;
  2. Armaments and dangerous objects;
  3. Obscene articles;
  4. Wild animals and plants;
  5. Antique and artistic objects;
  6. Buddha images, idols and parts.
  7. Other restricted and prohibited goods according to laws and regulation of concerned government agencies.
- 3) Outbound passengers who want to apply for VAT. Refund must submit the completed form for vat. Refund application for tourist (pp. 10.) This form should be presented together with the purchased goods and the receipts to the Customs officers at the Customs Inspection offices at the departure hall before checking in the tickets at airline counters. After passengers proceeding at the immigration counters, they can claim the VAT refund at the revenue department's offices.

## 2. Immigrant Requirements

### 2.1 First Port of Arrival and First Port of Departure

#### 2.1.1 First Port of Arrival

- 1) All passengers arriving into Thailand must clear immigration formalities at their first port of arrival.
- 2) Passengers transferring to C.I.Q. (Customs, Immigration, Quarantine) destinations, which currently are Suvarnabhumi, Chiang Mai, Mae Fah Luang-Chiang Rai, Krabi, Phuket, Samui, Trat and Udon Thani, can have their luggage through-checked to the final destinations, and subsequently clear customs formalities for their checked-luggage at the respective destination airports.
- 3) However, customs inspection of carry-on luggage may take place at the first port of arrival.
- 4) In addition, health, animal and plant quarantine may also take place at the first port of arrival.
- 5) The aforementioned first port of arrival procedures are effective from the following dates :
  - a. For passenger whose first port of arrival is Suvarnabhumi airport, from 1 April 2007 onwards,
  - b. For passengers whose first port of arrival is any other C.I.Q. airport, from 28 October 2007 onwards.

#### 2.1.2 First Port of Departure

- 1) Passengers who originate their flights at any of C.I.Q. (Customs, Immigration Quarantine) airports, which currently are Suvarnabhumi, Chiang Mai, Mae Fah Luang-Chiang Rai, Krabi, Phuket, Samui, Trat and Udon - Thani, and will connect to international flights leaving Thailand may have their luggage through-checked, then clear immigration, customs as well as health, animal and plant quarantine at the airport of origin, i.e. the first port of departure.
- 2) The aforementioned first port of departure procedures are currently in effect; they are included here only for the sake of completeness.

2.2 No documents or visas are required of passengers arriving and departing on the same through flight or transferring to another flight at the same airport and staying within transit lounge not exceeding 12 hours.

2.3 An alien who wishes to enter into Thailand must hold a valid passport and a visa, the latter being issued at Thai Embassy or Thai Consulate abroad, with the exception of certain types of aliens stated in items 2.3, 2.5 and 2.6.

2.4 Holder of a passport of Cambodia may enter into Thailand for a period of up to 14 days without visa.

2.5 An alien may enter into Thailand for a period of up to 30 days without visa under following conditions:

2.5.1 Holding the nationality and passport or a travel document of the following countries:

Australia, Austria, Bahrain, Belgium, Brazil, Brunei Darussalam, Canada, Czech Republic, Denmark, Estonia, Finland, France, Germany, Hellenic, Hong Kong, Iceland, Indonesia, Ireland, Israel, Italy, Japan, Korea (South), Kuwait, Luxembourg, Malaysia, Monaco, Netherlands, New Zealand, Norway, Oman, Peru, Philippines, Portugal, Principality of Liechtenstein, Qatar, Republic of Hungary, Republic of Poland, Republic of Slovenia, Singapore, Slovak Republic, Spain, South Africa, Sweden, Switzerland, Turkey, United Arab Emirates, United Kingdom, United State of America, Vietnam.

2.5.2 Holding the nationality and passport of the following countries: Hong Kong, Laos (with a passport with at least six-month validity), Macao, Mongolia, Russia, Vietnam

2.5.3 Holder of diplomatic or an official passport who enters and stays temporarily in the Kingdom of tourism purposes: Cambodia, China, Hong Kong, Laos, Oman, Macao, Mongolia, Myanmar and Vietnam.

2.5.4 Holding a diplomatic, an official or a service passport of Cambodia.

2.5.5 Holding a diplomatic, special and service passports of Oman.

**VTCC AD 2.20 LOCAL TRAFFIC REGULATIONS**

**VFR REPORTING POINTS AND LOCAL PROCEDURES**

**CHIANG MAI INTERNATIONAL AIRPORT**

**1. Reporting points for VFR flight**

In order to expedite and maintain an orderly flow of air traffic into Chiang Mai International Airport, the procedures of the inbound traffic of VFR flight, conventional and prop-jet aircraft, be set up as follow:

- a) Aircraft entering to land from north of Chiang Mai International Airport, shall report over Mae Rim District, designated as MIKE ROMEO (1855.0N 9857.1E), which is approximately 9 NM on R-353 of CMA VOR. When reaching MR the aircraft will be instructed to join aerodrome traffic circuit accordingly.
- b) Aircraft entering to land from northeast of Chiang Mai International Airport, shall report over Doi Saket District, designated as DELTA SIERRA (1852.5N 9908.5E) and San Sai District, designated as DELTA SIERRA (1851.5N 9903.0E), which are approximately 12 NM on R-057 and 7 NM on R-043 of CMA VOR respectively. When reaching DS the aircraft will be instructed to join aerodrome traffic circuit accordingly.
- c) Aircraft entering to land from east of Chiang Mai International Airport, shall report over San Kampaeng District, designated as SIERRA KILO (1844.5N 9907.5E), which is approximately 9 NM on R-099 of CMA VOR. When reaching SK the aircraft will be instructed to join aerodrome traffic circuit accordingly.
- d) Aircraft entering to land from south of Chiang Mai International Airport, shall report over Mae Tha District, designated as MIKE TANGO (1827.5N 9908.0E) and Sarapi District as SIERRA INDIA (1843.0N 9902.0E), which are approximately 21 NM on R-152 and 5 NM on R-130 of CMA VOR respectively. When reaching SI the aircraft will be instructed to join aerodrome traffic circuit accordingly.

**2. Aerodrome traffic circuit**

- a) Using runway 18 by entering left traffic circuit only.
- b) Using runway 36 by entering right traffic circuit only.

**3. Overhead approach pattern**

- a) Using runway 18 by left turn pattern.
- b) Using runway 36 by right turn pattern.

**STARTING UP PROCEDURE**

**1. Chiang Mai International Airport**

- 1.1 All IFR aircraft are to call "Ground Control" 5 minutes prior to start up request for ATC clearance.
- 1.2 Pilot are to inform "Ground Control" their call signs, and proposed flight level if it is different from the flight plan when they make the call as item 1.1 above.
- 1.3 In order to provide a more flexible ground traffic movement all domestic departures shall on longer be required to be ready to taxi within 5 minutes after clearance received.

7. Runway Utilization Procedures

7.1 Runway-in-use

The runway-in-use is selected by Suvarnabhumi Control Tower as the best for general purpose. If it is unsuitable for a particular operation, the pilot can obtain permission from ATC to use another but must accept that he may thereby incur a delay.

7.2 Runway Friction Measurement

7.2.1 The friction coefficient of runway surface is measured periodically by the use of a Surface Friction Tester(SFT) Vehicle, SAAB or VOLVO. This tester which is equipped with self wetting features uses the fifth wheel with a tire that meets the requirements of ASTM E1551 incorporating with measuring system and computerized data processing and records.

7.2.2 The test will be performed on the surface at a speed of 95 km/hr with 1 mm thick water depth underneath the testing wheel, it will be carried out in two directions over the usable length of runway at approximately 3 and 6 meters each side of the runway centerline. The test results provide average of friction values of 100 meter segments along the length of the runway. Should the friction value fall to 0.34 or less, NOTAM will be promulgated to notify that the runway may be slippery when wet.

| Friction Value | Determination of the value                              |
|----------------|---------------------------------------------------------|
| >0.34          | Normal                                                  |
| ≤0.34          | May be slippery when wet<br>(NOTAM will be promulgated) |

7.3 Departure sequence

7.3.1 Departure shall normally be cleared in the order in which they are ready for take-off, except that deviations may be made from this order of priority to facilitate the maximum number of departures with the least average delay.

7.3.2 To increase runway capacity and to comply with slot times if required, ATC may re-order departure sequence at any time. In addition, intersections will be assigned for departure. Pilots unable to accept the reduced take-off run available for the assigned intersection, shall inform ATC directly.

7.4 Departure clearance

7.4.1 The order in which aircraft are given take-off clearances will be determined on the basis of normal traffic priorities, the application of wake turbulence standard separation and departure slot allocations and management.

7.4.2 Under normal circumstances all departing aircraft will be issued with SIDs. If, for traffic management reason, a SID has to be cancelled, the pilot will be given a specific departure instruction.

7.5 Intersection departure

Departing aircraft will normally be directed by ATC to use the full length of the runway for take-off. Pilots-in-command may request or ATC may propose an intersection departure to resolve a particular runway or manoeuvring area conflict. The final decision whether to make an intersection departure rests with the pilot-in-command.

7.6 Clearance for immediate take-off

A pilot receiving an immediate take-off instruction is required to act as follows:

- a) if waiting clear of the runway, taxi immediately on to it and begin his take off run without stopping his aircraft ;
- b) if already lined up on the runway, take off without delay ;
- c) if unable to comply with the instruction, inform ATC immediately.

7.7 Departures – Minimum Runway Occupancy Time

7.7.1 On receipt of line-up clearance pilots should ensure, commensurate with safety and standard operation procedures, that they are able to taxi into the correct position at the hold and line up on the runway as soon as the preceding aircraft has commenced its take off roll.

## VTSM AD 2.21 NOISE ABATEMENT PROCEDURES

### 1. ICAO Noise Abatement Departure Procedure RWY 17/35

- 1.1 ICAO have developed aircraft operating procedures, Noise Abatement Departure Procedure 1 (NADP 1) and Noise Abatement Departure Procedure 2 (NADP 2), for the take-off climb to ensure that the necessary safety of flight operations is maintained whilst minimizing exposure to noise on the ground.
- 1.2 NADP 1 is intended to provide noise reduction for noise sensitive areas in close proximity to the departure end of the runway. NADP 2 provides noise reduction to areas more distant from the runway end.
- 1.3 All operators are to adopt NADP 1 procedures for all take-offs from Samui Airport on RWY 17 or RWY 35.
- 1.4 Full details of NADP 1 and NADP 2 are contained in ICAO Procedures for Air Navigation Services – Aircraft Operations, Volume 1 – Flight Procedures (PANSOPS, Doc 8168 Volume 1).
- 1.5 For Propeller and Turboprop Aeroplane, after take-off Pilot-in-Command should aim to use an airspeed giving the best rate of climb.

### 2. Noise Mitigating Measures

- 2.1 The following procedures are implemented to reduce aircraft noise levels when operating conditions permit. These measures include:
  - a) Preferential use of Runway
  - b) APU Restrictions
  - c) Reverse Thrust Use

#### 2.2 Preferential use of Runway

RWY 35 for take-off and RWY 17 for landing are preferentially to be used. However, in order to achieve maximum flight safety, this procedure is not applied under the following circumstances.

- a) The use of other runway is necessary in consideration of safety of the aircraft operation.
- b) The condition of the specified runway is not suitable for landing or take-off.
- c) The tail wind component, including gusts, exceeds 5 knots.
- d) The cross wind component, including gusts, exceeds 15 knots.
- e) When the possibility exists that orderly flow of traffic may be impeded.

#### 2.3 APU Restrictions

For noise abatement purposes, pilots are encouraged to limit Auxiliary Power Units (APU) use to the minimum time necessary. The maximum recommended APU run-time is (30) minutes.

#### 2.4 Reverse Thrust Use

The use of reverse thrust may negatively impact the residential community surrounding the Samui Airport, particularly during night hours. The use of minimum reverse thrust necessary for safety is recommended consistent with runway conditions and available length.

### 3. Noise Level Limits

#### 3.1 Noise Operating Restrictions

Under the Environmental Protection (Aircraft Noise) Regulations, international and domestic aircraft operating to/from Samui Airport are required to be certified as compliant with the relevant ICAO Annex 16 Volume I, Aircraft Noise.

- Subsonic jets must be certified as Chapter 3 or Chapter 4.
- Aircraft with Chapter 2 noise certification are not permitted to operate.

#### 3.2 Marginally Compliant Chapter 3 (MCC3) Aircraft

The operations to flights which will be operated by subsonic jet aircraft that meet the Chapter 3 standards by a cumulative margin of not more than 5 EPNdB (Marginally Compliant Chapter 3 (MCC3) Aircraft) will be prohibited for take-off and landing at Samui Airport between 1100 UTC and 2359 UTC.

#### 3.3 Exempted MCC3 Aircraft

MCC3 aircraft operated for emergency, medical and humanitarian purposes are exempted from the above restriction.
