

Rule of The Civil Aviation Authority of Thailand
on Measures for International Flight Operations during COVID-19 Pandemic Situation
(No. 2) B.E. 2564

According to the Rule of The Civil Aviation Authority of Thailand on Measures for International Flight Operations during COVID-19 Pandemic Situation B.E. 2564 issued on 11 November 2021 providing air operators and airport operators the practical guidelines for their international flight operations and airport operations to ensure the conformance with international standards, regarding recommendations from World Health Organization (WHO) and International Civil Aviation Organization (ICAO), and relevant Thai laws and regulations which are currently in force, and later, ICAO has issued CART Recommendations Phase IV & TOGD 4th edition thus in order to facilitate passenger food and beverage service while maintaining disease prevention and control measures according to standards and recommended practices from the Ministry of Public Health (MoPH), by virtue of Section 15/10 paragraph one (6) and paragraph two of Air Navigation Act B.E. 2497 amended by Air Navigation Act (No.14) B.E. 2562 (2019), the Director General of CAAT stipulates the Rule on Measures for International Flight Operations during COVID-19 Pandemic Situation as follows;

Article 1. This Rule is called the “Rule of The Civil Aviation Authority of Thailand on Measures for International Flight Operations during COVID-19 Pandemic Situation (No. 2) B.E. 2564”.

Article 2. This Rule shall come into force from 3 December 2021 until the situation is ended or any further notification is issued.

Article 3. The provision of Article 7 (14) of the Rule of The Civil Aviation Authority of Thailand on Measures for International Flight Operations during COVID-19 Pandemic Situation B.E. 2564 issued on 11 November 2021 shall be repealed and replaced with the following provision:

“(14) Food and beverage service may be provided by considering sealed, pre-packaged food and bottled water. Only clean and hygienic ice from reliable source may be considered for in-flight service. Crew members shall enhance hand cleaning and disinfection both before and after meal preparation and service. These measures aim to, as much as possible, reduce contact between crew and passengers during service. In-flight safety standards shall still be respected at all times.”

Issued on 1 December 2021.
