

REGIONAL WORKSHOP ON SUSTAINABLE AVIATION FUELS R.SAP.2

25 - 27 JANUARY 2022
EU SEA CCCA CORSIA PROJECT

AGENDA

OBJECTIVES: The workshop intends to establish a joint technical perspective on the value of Sustainable Aviation Fuels as a potential measure to contribute towards decarbonising aviation, and on the necessary enablers that would be necessary for large-scale uptake in SEA. It also aims to help establish common interests and bring together interested parties to address common challenges and opportunities. Its longer-term goal is to contribute to the scale up of SAF in SEA and to contribute to its deployment at large scale worldwide.
